

TAILGATE FOR TURTLES

To kick-off a new football season, fire up the grill and get ready to celebrate your favorite teams with sea turtles in mind. Be the first on your block to host a Tailgate for Turtles! This fall, gather your family, friends and colleagues to raise awareness about sea turtles and the threats to their survival, while having fun.

STC's House Parties Program is designed to give turtle enthusiasts the opportunity to get more involved and help raise awareness about sea turtle conservation. House Parties and tailgates are a fun, engaging way to educate people about issues facing sea turtles and ways they can support STC's mission.

Everyone is invited to get involved and become a Tailgate Host! The House Parties Program features a fully customizable Toolkit that can be downloaded for free, providing the host with a step-by-step guide that makes planning a party simple.

You are invited to download and browse through the House Party Toolkit to explore the possibilities of hosting your own party or tailgate, including theme ideas, fundraising tips, invitations, and more. Register to download a free version of our house party kit at <http://www.conserveturtles.org/involved.php?page=house-parties-download>. You can also purchase a House Party kit that includes a sample adoption kit, brochures and stickers for your party guests at <http://www.conserveturtles.org/involved.php?page=house-parties-download>.

Don't forget to send us pictures or videos of your sea turtle-themed tailgate so we can recognize your efforts on our webpage. If you have any questions, please contact rocio@conserveturtles.org. Good luck and happy tailgating!
